KONFORT 712R: TEXA'S NEW MID-RANGE OFFER
Automatic A/C station, it can be purchased in R134a or R1234yf and has an excellent quality/price value.

KONFORT 712R is TEXA's new mid-range A/C charging station which boasts the typical technical features of the top-range models such as the **automatic maintenance service management** and the **measuring of the amount of oil recovered with the electronic scale**. The KONFORT 712R can be purchased in the **R134a** or **R1234yf** version with the option to change the configuration.

Other distinctive features of the KONFORT 712R compared to the other models in its category, is the **possibility to install the Refrigerant Identifier Kit** and to use it in combination with **REC+**, the innovative device patented by TEXA for the recovery of contaminated refrigerants from the vehicle A/C systems. Furthermore, this A/C charging station is equipped with a closed chassis that makes it extremely durable.

KONFORT 712R is the ideal solution because with a **limited investment** the mechanic can have a station with exclusive features and top class performance, ensuring customers a **high level of service** over time.
